# Tran Quang Dung

Frontend Developer

**♦** 0343389956 ■ ongdungdz@gmail.com **♦** Minh Khai, Bac Tu Liem, Ha Noi

#### **OBJECTIVE**

Seeking an internship in frontend development to apply my ReactJS skills, learn from real-world projects, and grow into a professional web developer.

### **EDUCATION**

#### Ha Noi University of Industry

2022 - Present

Computer Service

Studying Computer Service with coursework in web development, programming, and user interface design. Gaining practical experience with HTML, CSS, JavaScript, ReactJS, and Ant Design.

## **PROJECTS**

## Hotel Booking App

( 4/2025 - Present )

Role:	Frontend Developer
Tech stack:	ReactJS, Ant Design, JavaScript, CSS
Team size	1
Description:	Developed a responsive web application that allows users to search, view, and book hotel rooms online. The app features a clean user interface, filtering by location and price, and a booking confirmation system. Used ReactJS for dynamic UI and Ant Design for consistent and elegant components. Focused on modular code, reusable components, and responsive design.
Key contributions:	Designed and implemented UI components with Ant Design. Handled routing, form validation, and state management in React. Simulated booking data using JSON for testing user flows.
